

## **Accounts Senior**

**Are you newly qualified and want to move out of audit and accounts? Have you got a passion for technology and want to support clients with their systems and processes? Our Business Services Department is recruiting and may have the perfect role for you...**

We are looking for a dynamic and motivated chartered accountant, newly qualified or experienced, with a keen interest in innovation and technology, who is looking to further their career in a progressive and professional environment where personal development is regarded highly.

### **About Us:**

Rickard Luckin is an established Accountancy and Tax Advisory firm, with a significant presence across Essex and the South East. From our offices in Basildon, Chelmsford and Southend-on-Sea, our expert team of chartered accountants and tax advisers work with businesses and individuals across Essex to help them realise their potential and achieve their aims.

Our passion and commitment does not stop at the client experience! We follow the same approach with our team members! As an award-winning training firm, our core mission is to ensure all team members continue to grow and develop, supporting our team to meet their individual goals and aspirations.

### **About the role:**

The Management Account position is a multifaceted role that sits within the Business Services Team. As a key member of the team, the individual will be required to lead and take responsibility for individual assignments as well as team projects ensuring they are delivered in an effective and timely manner whilst ensuring the quality of service meets the firm's aims.

The role requires an enthusiastic and professional individual who is instinctively client-focused and has a strong commercial awareness which allows them to understand the business environment and changes likely to impact clients and provide them with forward-thinking solutions.

The team member must be naturally solution driven as a pivotal part of this role is being involved in the client management information systems improvement project. Therefore the team member will have to feel comfortable working closely with our clients to understand and analyse their current processes and systems and have the confidence and knowledge to provide them with innovative solutions

Drawing upon their knowledge, training and experience they must be confident carrying out tasks with minimal supervision and will be responsible for the preparation of management accounts and supervising the work to ensure all planning objectives that have been set are met. The individual will also supervise and support junior Team Members on bookkeeping and management accounts assignments and must feel comfortable reviewing other team members' work.

This is an excellent opportunity for an ambitious qualified accountant who has a keen interest in technology and how it will shape the industry moving forward. This role has the opportunity to combine accounting experience and skills with progressive project work to provide our clients with cutting-edge and pioneering system solutions.

### **Required Qualifications & Skills**

- ACA/ACCA/CIMA qualified
- Experience using multiple accounting software (Xero & Sage is a must)
- Advanced excel skills
- Proficient computer skills
- Excellent verbal and written communication skills
